

Community Service with Denmark FBLA

Denmark FBLA is all about giving back to the community. Our members feel the same way and we consider it our duty to connect them to opportunities where they can serve and make a difference in their community. Our chapter sets up a donation drive every month of the school year and partners with various organizations to supply them with needed items.

August was the first month back to school after the summer holidays. Denmark FBLA collected school supplies to give to Denmark High School's school pantry where kids could come get things they forgot or needed urgently. The next month, September, members wrote letters to first responders and thanked them for all their hard work. Our last community service opportunity was the Can Drive during the months of October and December. The chapter partnered with BETA club to increase interaction during this donation drive and it turned out to be a success. We encouraged members to participate in these community service opportunities by providing membership points and service hours for their efforts.
