

Adviser Appreciation Day

Becoming an adviser for a club is no small task. It requires long hours, attending multiple meetings, keeping up with the officer team, and much more. Most importantly, it requires dedication to keep improving the club and being there for the chapter every step of the way.

Words can not express how thankful Denmark FBLA is for its advisers. Mr. Shirley, Mrs. Page, Mr. Arnold, Mr. Godwin, and Mr. Urban always go the extra mile to help the chapter be as successful as it can be. Over the last few months, our advisers have helped out in every way they can. They aided the officer team in conducting RLC in-house testing which needed them to be present at school early in the morning. They registered and chaperoned Fall Rally and FLC which needed them to take the time out of their day to happen and they also helped solve internal issues that needed to be taken care of.

We are incredibly grateful for the consistent support that our advisers provide Denmark FBLA; we would not be where we are today without them, so we thank them for their tremendous efforts and dedication towards the chapter! Recently, the officer team gifted them a mug with hot chocolate as a token of appreciation.
